TESTIMONIAL

BeeHive Homes of Eau Claire is proving to be a wonderful place for our 100 year old mother. The facility is new, modern, and well furnished with an open floor plan. Most important is the staff who are competent, caring and attentive to the resident's needs. It feels homey and the staff feel like friends.

Description of Specialized Services:

BeeHives Homes of Eau Claire offers Memory Care services for those in need in the Eau Claire area customizing care to meet the unique needs of each resident. In a small home-like setting we are able to build a relationship and get to know each resident. In doing so, we are able to give moment of joy to each resident by relating with them at a personal level. Our staffing is designed to be able to provide personalized care that will allow times for the extras. Each leadership role has a specific expertise which allows us to have a multi-disciplinary approach to care. Based on our service offerings, we are able to provide an effective age-in-place model that allows residents to live where they are most comfortable even if they advance in their medical condition. We believe in focusing and identifying interventions to prevent further health decline but know that many of our aging population will need additional care and services. Keeping them in their home is key through any stage, by partnering with hospice when the time comes allows us to focus on their comfort and quality of life.
