Description of Specialized Services:

We offer 24 hour supervision with sleep staff. Our home is a typical one story home and each resident has their own private bedroom but shares the rest of the house. We have home cooked meals and do many outings for our residents. We in a sense, live like a typical family. Everyone here participates in what they choose, like meal prep, shopping, household chores. It is not required but everyone seems to enjoy to be involved because it is their home. We provide transportation and supervision to all medical appointments as needed within normal routine limits. We assist with all medications. We do not take any person that is a wonder risk!
