What is your moment of joy?

When it comes to helping those with memory loss the pictures on the walls can't hug, but our caregivers can. That is why Azura Memory Care has developed a person-centered, science-based training called MOSAIC Connections. It is through this training that we equip our Team members with communication and approach techniques that assist them in engaging residents in personalized moments of joy!

"As we went through the progression of my husband's disease we were so glad that he had all of you caring for him, loving him and making him one of your family. I could go home each day and know he was well cared for, loved and content."

Thank you, Betty Karpe

Transforming the culture of care.

Azura's MOSAIC Therapies of Care

are based on Azura Memory Care's Five Core Values

We treat our guests and coworkers with the utmost **RESPECT**. We help people to **RECOVER** physically, mentally and spiritually. We encourage **INNOVATION** and creativity. We hire and **RETAIN** the finest people. Be **EXCEPTIONAL!**

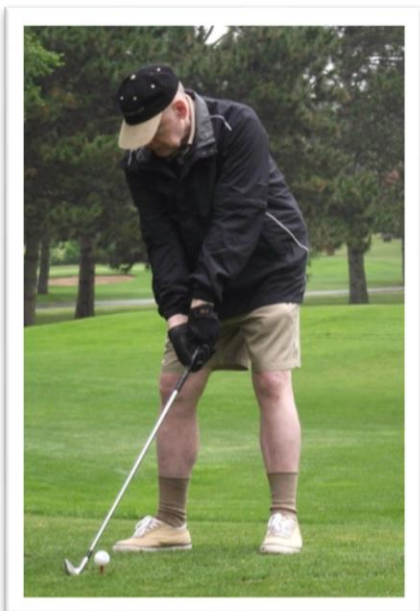

MOSAIC Creativity – the ability to express ones self remains throughout the dementia disease process, but it takes specialized training to engage and bring out these creations. One way that we assist our residents to do this is by partnering with the Alzheimer's Association's *Memories in the Making* Program and the Alzheimer's Poetry Project, which seeks helps all of our residents to express themselves through brush strokes or beautiful prose!

MOSAIC Cognitive Stimulation – at Azura Memory Care we care for the mind and focus on strengthening its remaining abilities and functions. Personalized engagements created by our Team of Certified Cognitive Stimulation Providers are incorporated throughout the day to boost our residents brain and enhance their quality of life!

MOSAIC Dreams – every person has a dream or a best day of their life. At Azura Memory Care we strive to make them a reality. Thanks to our partnership with Second Wind Dreams, we have been able to assist a resident to go golfing again, help another graduate from college and make many other dreams come true!

The Flower Garden by Bernice Sumwalt
2015 Memories in the Making Award

MOSAIC Enhanced Environments – each home within the Azura family of care was built with the resident in mind, which is why many feature an indoor walking track and specially designed bathrooms. In addition, we have created enhanced social areas highlighting MOSAIC Purposeful Destinations which engage residents in familiar items, ensuring that it truly it feels like home.

Description of Specialized Services:

Azura Memory Care has been providing high-quality care for those living with Alzheimer's disease and dementia for over a decade in the Eau Claire area.

Our commitment to loving family service is exemplified by our extensive seven-day a week Life Engagement Program that works to enhance the mind, body and spirit, while creating personalized moments of joy! We are also known for our advanced MOSAIC by Azura dementia training that equips our Team Members with specialized dementia care methods, approaches and communication techniques that allow us to successfully care for those within our family of care throughout their disease process.

Always on the cutting edge, Azura Memory Care was the first to offer the services of a House Physician, on-site Podiatry, electronic charting and personalized engagements to assist those with behavioral expressions.

These systems, in conjunction with our nationally recognized MOSAIC by Azura, Caregiver Training Program all speak to our reputation of providing the highest in quality care. They are also a testament to why Azura Memory Care has been deemed "citation free" for the past decade by the State of Wisconsin Department of Health Services.

At Azura Memory Care your loved one will be part of a world-class family of care, while being supported and loved. At Azura they will feel like they are home and will be encouraged to live, not just exist!
